

	Yr. Women first admitted as undergrads	Yr. first female prof. was hired in Physics or Astronomy	Yr. first woman was granted tenure in Physics or Astronomy	Current No. of female faculty in Physics or Astronomy
U.C. Berkeley	1871*	1981 /1983	1987	5/18 in Astro.
MIT	1870's*	1884	1972	10/102 Physics
Princeton	1969	1943 lecturer		2/41 Physics
CIT	1970	1979		4/46 Physics
Harvard	1975	1956	1956/1992	3/19 Astronomy
Stanford	1891*		2003	9/50
U.C. Riverside	1954*	1967		7/40

\*Since founding of the institution

Mary K. Gaillard 1<sup>st</sup> female physics prof. at U.C. Berkeley Memoirs "Singularly Unfeminine Profession: One Woman's Journey in Physics" 2015

Imke de Pater & Jack J. Lissauer Planetary Sciences Cambridge University Press, 2<sup>nd</sup> revised edition, 2015 Imke was the first woman Dep't. Chair of Astronomy at UCB 2010-2015

Fundamental Planetary Science : Physics, Chemistry, and Habitability Jack J. Lissauer & Imke de Pater Cambridge Univ. Press (2013)

Ellen Richards First Female Prof. at MIT (but not in Physics)

Vera Kistiakowsky – first woman physics professor at MIT

In "Searching for Scientific Womanpower: Technocratic Feminism and the Politics of National Security 1940-1980 by Laura Micheletti Puaca Univ. of North Carolina Press, Chapel Hill 2014

Madame Wu Chien-Shiung: The First Lady of Physics Research by Chiang Tsai-Chien World Scientific Translated by Wong Tang-Fong (2014)

Women Scientists: Reflections, Challenges, and Breaking Boundaries by Magdolna Hargittai Oxford Univ. Press (2015)

I'm guessing that Anne Kernan was the first female prof. at UCR. She retired the year after I arrived there, and was the most senior woman faculty member there at the time. She is now 84, living in Massachusetts. Born in Dublin, Ireland in 1933.

Melissa Franklin is the first woman granted tenure in Harvard's Physics Dep't: 1992

Helen Quinn was granted tenure at Stanford in 2003. I'm guessing she was the first one.
